Product Name:

Automatic Marshall Stability Test Machine

Product Code:
LABENGINEERING-INDIA-CAT31000

Description:

Automatic Marshall Stability Test Machine

Technical Specification:

The Automatic Marshall Stability Test Machine is supplied complete with:

Load cell, 50 kn

Linear potentiometric displacement transducer with bracket, 25 x 0.001 mm

Hand wheel for manual control

Breaking head, 4

PC software

Connection cable

Main Features:

Automatically calculates flow and stability values

Can make test with displacement and limited load control

Real time display of test graph.

CPU card with 32-bit Arm RISC architecture

Permanent storage capacity up to 10000 test results.

4 analog channels, 2 channels are active for marshall test

Ethernet connecting for computer interface

800×480 resolution 65535 color industrial touchscreen

4 main function keys

Multi-language support

Programmable digital gain adjustment for load-cell, pressure transducers, strain-gauge based sensors, potentiometric sensors, voltage and current transmitters

1/256000 points resolution per channel

10 data per second sample rate for each channel

3 different unit system selection; kn, ton and lb

Real-time clock and date

Test result visualization and memory management interface

Remote connection through

USB flash disc for importing test results and for firmware

USB printer support for inkjet and laser printers (ask for compatible models)

Camera support for real-time video recording during test (ask for compatible models)

Free of charge PC software for the test control and advanced report generation

Engineering Lab Equipment India
