ENGINEERING LAB INDIA Email : sales@engineeringlabindia.com

Product Name : Kinematic Viscometer Bat

Product Code : LABENGINEERING-INDIA-CAT310034

Description:

Kinematic Viscometer Bath

Technical Specification :

Features: High precision digital display Ideal for controlling the temperature accuracy Intelligent signal sampling for accurate data measuring and parameter reading Desktop based all-in-one design for easy operations and portability Electric stirrer for ensuring uniform temperature of bath Easy cleaning and drying of viscometer tubes Accurate viscometer for improving experimental efficiency Durable glass bath for optimum heat preservation
