Product Name :Kinematic Viscometer Bath

Product Code:
LABENGINEERING-INDIA-CAT310034

Description:

Kinematic Viscometer Bath

Technical Specification:

Features:

High precision digital display

Ideal for controlling the temperature accuracy

Intelligent signal sampling for accurate data measuring and parameter reading

Desktop based all-in-one design for easy operations and portability

Electric stirrer for ensuring uniform temperature of bath

Easy cleaning and drying of viscometer tubes

Accurate viscometer for improving experimental efficiency

Durable glass bath for optimum heat preservation

Engineering Lab Equipment India
