

Product Name :
Miniature CNC Lathe Machine

Product Code :
LABENGINEERING-INDIA-CAT130005

Description :

Miniature CNC Lathe Machine

Technical Specification :

Small accurate lathe.
Ball screw highly increase the accuracy and durability.
High accurate bearing provide high accuracy and high speed for the spindle unit.
It is suitable for massive production of meter, high accurate electric device & munitions.
Integral protection design highly increase the speed of each axis and cleanness of guide way. (Optional Features: Collect, 3 Jaws Chuck Manual, Hydraulic Hollow Chuck)
With part Square Guide Way, Hydraulic Chuck, Manual Tail Stock, Four Station Electric Tool Post, Automatic Lubrication.

Miniature CNC Lathe Machine from India for Engineering Lab

Miniature CNC Lathe Machine, Workshop, Engineering Lab, Engineering Lab Equipment, Mechanical Engineering, Lab Equipment, Workshop Tools, Workshop Machines, Tools, Machines

Engineering Lab Equipment India
