

Product Name :
Wood Radial Arm Saw

Product Code :
LABENGINEERING-INDIA-CAT130027

Description :

Wood Radial Arm Saw

Technical Specification :

Totally enclosed fan cooled (TEFC) motors are manufactured with cooling ducts that move air through the motor laminations to keep them cool while keeping the internal portion of the motor sealed from dust and contamination.

Cast Construction

Our motors also offer the added benefit of an integrated electro-mechanical brake system.

The brake system continues to operate even when the power drops out.

Electronic brake systems cannot compete with the durability or reliability of our electro-mechanical brake systems.

Wood Radial Arm Saw from India for Engineering Lab

Wood Radial Arm Saw, Workshop, Engineering Lab, Engineering Lab Equipment, Mechanical Engineering, Lab Equipment, Workshop Tools, Workshop Machines, Tools, Machines
