

Product Name :
Anti-Locking Braking System Trainer

Product Code :
CHINAELABC0030014

Description :

Anti-Locking Braking System Trainer

Technical Specification :

The trainer should be designed to demonstrate the theory and operating characteristics of today's modern braking systems, ABS system of various types are being included on newer vehicles as it greatly improves the control of the driver during braking, which feature computer controlled anti-locking or skid-control systems. The unit should consist of original automotive ABS braking components, which should be mounted onto an integrated floor stand, made from powder coated electro galvanized steel, that are mounted onto wheels for mobility.

A color coded schematic chart, under a lexon poly carbonate protective screen, of the ABS system and circuit, should also be mounted onto the trainer for reference.
